

Project Walkthrough

The **Dynamic Domain Skins** feature has been reverted. The application is now back to its standard universal configuration.

Current State

- **Theme:** Standard Orange/Blue branding.
- **Terminology:** Uses standard terms like "Product", "Customer", "Store", and "Table".
- **Modules:**
 - **Inventory:** Standard product management.
 - **POS:** Standard Point of Sale.
 - **TableLink:** Restaurant Table Management.
 - **Dashboard:** General Analytics.

No dynamic industry switching is currently active.
